Tobacco Free Hernando is a community initiative targeting attitudes, behaviors and tobacco access, to mobilize and address tobacco policy and system changes in Hernando County. The group consists of adults from, the public and private sector, local youth leaders, and members of the general public.

Students Working Against Tobacco (SWAT) is a powerful resource within the Tobacco Free Partnership, and SWAT is one of the strongest assets of the partnership. There are many SWAT activities scheduled for the upcoming year that will make a tremendous impact in our schools and community.

The Tobacco Free Hernando is very excited and encouraged by the vast array of opportunities that are available and welcome the opportunity to act upon them. The credibility and efforts of our Partnership have helped establish a "tobacco presence" in the community. This "tobacco presence" enables the Hernando County residents to seek out Tobacco Free Hernando for assistance with tobacco concerns, which helps to grow our partnership.
